COMMENT OF

Menon's Talks

WEEK ago, an American news agency reported result of Mr Krishna Menon's talks with Mr Chou En-lai in Peking, a meeting between the United States Communist China would take place within 60 days at which general Far East problems, and specifically Formosa, would be dealt with. Subsequent disclosures proved the report

wrong. Mr Menon, if now appears, ment, fulfilment of which, Peking considers an essential preliminary to talks with America. Washington and London will be informed of these conditions soon.

There is reported to 'restrained optimism" New Delhi over the chances of an ultimate settlement This stems largely, no doubt, from the more tractable attitude Mr adopted at Bandung. there are other straws in this fair and promising wind blowing from the northern capital. Chinese official editorials, for instance, appear to be less inclined to implicate America in

Nationalist THERS see less insistence may now favour "constitutional" and less methods aggressive eliminating Chiang. Again China has accepted the

offers of Indonesia as well as India (to assist in "Formosa settlement. Finalthe British radio operator. Robert Ford, which gives details of their talks. American airmen may due for discharge soon.

Peking has much to gain by composing differences with America. The decadence of American influence in the talks on Formosa in such a way Far East and the rivalry as to avoid loss of face on all China offered India at the sides. Bandung conference for the affections of Asia combine fruits of careful manoeuvr- Nationalists towards this stage.

Ceasefire Talks

Menon To

., New Delhi, May 29. Mr V. K. Krishna Menon. India's chief delegate to the confined his discussions United Nations, is expected less to arranging an actual to indicate tomorrow some meeting than to establish preliminary step which, he ing China's basic require- believed, could lead to a ments for a Far East settle- settlement of the Formose problem following his talks in Peking.

He has already reported to the British, American Canadian envoys here on hi ten-day talks with Mr Chou En-lai, the Chinese Communist Prime Minister.

At a press conference tomorrow. Mr Menon is expected to suggest certain moves by the main parties to the dispute to lessen tension and pave the way- for talks between the United States and Communist China, and a final settlement of

BASIC ASPECTS

The Indian envoy will not put forward any detailed plan but rather give his impression of the basic aspects of Far East problems arising out of enmity and Communists.

It was announced today that i Mr Nehru, the Indian Primo Minister. will himself give a press comfirence on Tuesday. This is expected to complement Mr Menon's press conference. Since Mr. Menon returned from Peking on Thursday, has been in continuous contact with Mr Nehru.

"Mr Menon will leave shortly for London, Washington and Ottawa for talks with Western ly, there is the release of leaders, following his report to the enjoys here. He urged them to maintain strict secrecy on the Official circles here emphasise

be the extreme complexity of the Far Eastern problem. Mr Menon's main task is seen as mainly that on unravelling a series of inter-related problems which stand in the way of direct

SOME ISSUES

'Among "these problems are to suggest that leadership of the proclaimed intentions of the East may be one of the the Chinese Communists and to paralyse the entire British cach ing and correct diplomacy other's territory, the future of which is tempting Peking at the Nationalist-held offshore already come into effect. Food which Mr Nehru believes should be evacuated and the possible release of American airmen gaoled in China.

It is feared that further complications might arise if reto "sit down and discuss Far | ports are true that a man Eastern problems" suggests | wanted in connection with the that vacillation is being alleged sabotage of an Indian airliner carrying Communist officials and journalists to last month's Afro-Asian conference has fled from Hongkong to

Release Huers

Washington, May 29. The United States is "hopeful" that at least four of 15 American airmen gaoled by Red China will be released soon, perhaps within a week, informed sources said today.

American hopes for action in the case of the four filers rose sharply yesterday following receipt here of a secret report on Mr. V. K. Krishna Menon's talks with Red Chinese leaders on easing cold war tensions.

But today's statement was the first indication they may be released so soon. Even so, it was emphasised that the Reds are highly unpredictable and the turn to gloom overnight.

One informant who is familiar with the report on Mr Menon's trip to Peking said the situation was "so delicate" that he would not even talk about it at this particular time.

NEW DELHI

The report was said to concern a long talk in New Delhi on Friday between Mr Menon and the US Ambassador, John Sherman Cooper, who sent report to the State Department. The acting Secretary of State, despite the Whitsun top administration officials holiday. Would-be passengers I were reported to have conferred

U.S. AID BRITAIN 'VERY LITTLE'

Washington, May 29. The Secretary of the Treasury. George Humphrey, said today that little US aid was needed in Great Britain because economic conditions there had improved so much lately....

Mr Humphrey appeared on television interview with high school boys and girls asking most of the questions.

He commented on British conditions after a question about British tax rates and US aid.

He suggested that there was little .. connection between the raising and lowering of British taxes and US aid, but he added that the amount of American assistance to the British had been very low recently because of improved conditions there.

He cited the repair of war damage as an example, of the decline in need for American aid,-United Press.

AEC GIVE WRONG INFORMATION SAYS SCIENTIST

New Haven, Connecticut, May 29. A Yale physicist said tonight that the Atomic Energy Commission had given what he called misleading information about the danger to mankind from atomic test explosions.

The physicist, Mr Franklin Hutchinson, assistant Professor of Radiation Physics, said in a radio programme that if officials of the Commission "have data to back up their contention that there are no harmful genetic effects from the radiation, that's just wonderful. The trouble is I don't know of any such data and neither does anyone else to whom I've talked."

He warried that the radioactive fallout from' atomic explosions were producing genetic offects in mankind that would be showing up for "thousands of years to come."

CONSERVATIVE

He cited an estimate by one authority that at least 1.800 children had been born since last Match with an additional mutation caused by the hydrogen bomb tests last spring.

He said this was a "very conservative calculation." Such mutations, he added awould not be of the spectacular kind but might show up as a heart defect or perhaps a deformity such as deadness. might show up just as a tendency to catch colds.

But he added that experimental work with plants and animals indicated changes induced by mutations were almost invariably harmful.

"If we go ahead," he "and expose our children to the amount of radiation which later effects we have committed our grandchildren and their grandchildren for many generations to , situation over which we can chief replanting officer offer no control."-Reuter,

The GROCODILE

HORTLY after the war a friend and I went on a shooting holiday in the exotic Northern Territory of Australia. This curious adventure of mine came about when Jack and I were shooting crocodiles on the West Alligator River, which empties itself into Van Diemen Gulf. (The early settlers thought the huge reptiles were alligators).

We hunted from a flat-bottomed boat, drifting quietly by the lily-lined banks of

the tropical river, seeking to surprise the great saltwater crocodiles while they sunned themselves on the mud banks. One of us took ready with one of our two

all beautiful, too, and

technique is superb. .

Slamming a bullet in the grey-brown creatures before they slithered into the the water was our chief hope of a trophy.

In the water

water, of course-from time to time we came up with a crocodile lying still, almost submerged on the edge of the lily and reed patches. But a dead crocodile in the water invariably sank before we could reach it and though we might have dived for it-well, it wasn't the jolliest of notions in a river which had got lits name not West

Alligator for nothing. Somotimes we put the rifle down and just shot pictures with my reflex camera.

We bagged 10 during our first but stayed near the top of the week-the largest, 14ft. 2in. long and the smallest 10ft, 8in. That somewhere about one evening and stayed for a yarn.

Some left.

Ever Heard Of The T-line?

T-shirt Dresses Are Popular In

New York. LIRST it was the "H" line. comes the "T", to make

This latest style comes not from Christian Dior, who first dreamed up silhouettes in the shape of letters, but from a new feminine raid on men's wear. It is a variation of the T-shirt, which now joins the long list of men's apparel which the women have copied.

elongated of course, show in daytime dresses. dress and jacket combinations, dress and coat costumes, bare-topped "after five" dresses, and separates.

About the only resemblance to the original is in fabric and in such details as rib-knit bindings of neckline and sleeve. Cotton continues the favourity fabric, it is shown with although smooth, nubby, or tweed-like finish.

THE REASON

Manufacturers specialising in the T use both solid colours navy, beige, pale blue or pink, to name a few—and contrasting horizontal stripes, such as white and black, navy and black, or a three-way combination black, red and white.

One manufacturer features Tshirt dresses in solid shades, topped with full-length coats of striped material.

Another manufacturer says women have taken to the T-shirt dress because it requires little care at home or for travel. Most of the dresses are hand washable, and need little or no

Apparently the idea that horizontal stripes are becoming only to the tall, thin girl doesn't bother women who are not tall and thin.

he said, "We're shoving off! So iso busy filling orders for the Tshirt dress, we're making little of anything else."-United

This left from Cfn Daniels of the REME did very little damage as RAF's Blake cleverly dodged it. This was in the Welterweight class in which Cfn Daniels scored a points victory over the airman in the Open Air Amateur Boxing Club tournament held at the Club Ground last Saturday.—China Mail Photo.

Horses Derby May Be Found At The Sales

By RICHARD BAERLEIN

Never has the prestige of British bloodstock been so high abroad, especially in the United States. The signposts all lead to prosperity in the bloodstock market - home buyers should be attracted at the British yearling sales.

Bloodstock has had a splendid advertisement recent-

Out of the first six in the Derby betting four colts were bought at "public auction-Our Babu, Daemon, True Cavalier and State Trumpeter.

GREATEST BARGAIN

value as a sire. 👵

REMEMBER

The sales at which they were when beaten by Sierra Nevada bought varied. Our Babu cost to raise hopes that he would by his ability to avoid 2,700 guineas at the First July win next time out. sales; Daemon cost 4,700 guineas at the Doncaster sales, where Trumpeter cost 9,200 guineas, and Tamerlane 4,500 guineas.

True Cavalier was cheapest of all and cost only 1,700 guineas at the Newmarket October sales. State . Trumpeter was one of the best-looking yearlings of his generation, though, luckily for Mr H. J. Joel, he did not appeal caster that year.

Mr Joel was prepared to buy the colt, irrespective of the cost. and nobody can say he has not more than a mile, which is proved a bargain. He won two something that cannot be overraces in fine style as a twoyear-old and would be worth at least three times his original price if he were sold now.

It is unfortunate that so little racecourse this season. He was at yearling sales. sufficiently impressive at Epsom

PROMOTION

DEBUTANT DINNING MAKES A FINE IMPRESSION IN HIS COLONY CONTEST

OUR BOXING REPORTER

How fickle can fight fans be? That is the main reaction to the open air promotion staged by the Athletic Boxing Club at the Hongkong Football Club Stadium on Saturday night.

It seemed that all the predisposing factors were there to ensure a big crowd being present. There was an attractive bill, modest prices, and an excellent evening, yet the attendance was disappointing in the extreme.

Those who stayed away, how- plucky opponent who tired a bit ever, missed an entertaining towards the end. programme, and what is probably much more important, they missed the debut of a newcomer who is going to cause a furore among local fistic folks.

Fong did more than enough to wipe out McIver's early lead and the decision in his favour was a most popular one. among local fistic folks.

If you keep a diary of portant information flick pages to 'D' and note down the name Dinning for unless I am very much mistaken it identifies a young man who will claim a fair share of boxing's headlines during the time that he remains in Hongkong.

In his first fight in the always ill at ease against Hugh' although he had his moments of lead

anxiety. CAUGHT UNAWARES Viewing the bout from the ringside Lashould say that Din-

ning suffered at the outset from lack of good advice from those in his corner. Ross is well known as a fast, starter who throws everything into . an early hattack, and it was obvious that Dinning was caught unawares. During this hectic period he took a lot of punishment and

for a time" lost his composure, some of his confidence and a little of his self control. Having weathered the storm, he showed Eddy Ko (ABC). his class by changing methods, by switching his attack from head to body, by sustaining his attack, and finally minimise punishment inside.

Ross fought gamely and well and often stopped Dinning True Cavatier may prove to his trucks with an accurate left have been the greatest bargain hand....but there is a limit to of them all. Nobody can quibble the amount of punishment even with his breeding from a Derby the can take and the final bell point of view, while he appears must have come as a welcome to possess abundant stamina, relief to his tired, aching body. Another newcomer, Red Cliff

Only Two Unbeaten Teams In Lawn Bowls League Now

By "TOUCHER"

Only two teams-Indian Recreation Club "Blues" in the First Division and Kowloon Dock Club in the Third Division-succeeded in keeping their unbeaten records intact in the Colony Lawn Bowls League matches during the week-end.

The IRC "Blues" only got through after a mighty effort on the part of A. M. Omar's rink whose overwhelming 37-9 win over Kowloon Cricket Club's John Tang, Red Symons, Jimmy Wong and Bill Hong Sling carried his side to a 3-2 victory.

While excellent support was given to A. M. Omar by his front-men A. R. Abbas, Samad Yusuf, and A. R. Kitchell, the KCC front-men were completely off their usual form. Especially brilliant was the IRC No. 2, Samad Yusuf whose accurate drawing to the jack paved the way to his rink's success.

in succession, they led by 9-0, and at the end of the 11th head had forged ahead to 18-1. From 25-9 on the 16th head, they staged a spectacular finish by scoring no fewer than 12 shots on the last five heads of the

A. V. Löpes, Dick Rosselet, Bill Gaffney and Tommy Baker, who all made an excellent attempt to cover up their team's deficit, and go for a count whenever

they had the opportunity. 4-1 victory for the Kowloonites Kowlcon Cricket Club and 12th in which they lost a by George Lee and H. Randall. two, a six and a three, however,

five and a four to lead by 30-16, for the. Valley club, they conceded two a count of four.

CLOSEST FIGHT

The closest fight in this match was seen between the rinks skipped by U. A. Rumjahn and F. R. Kermani. The score was deadlocked on no fewer than three occasions, 9-9 on the 13th head, 10-10 on the 15th head; and 13-13 on the 19th head. Better support by his front-men and particularly Charlie Thompson at No. 2 enabled Kermani to have that slight edge over his opponents to emerge

victorious by 17-13. son stayed for the count on the 'S. Y. Doe'showed vast improve-20th head. On the last head, mint on his last year's form U. A. Rumjahn was a little un- as lead and was always lucky. In trying to wrest the on the jack. Skip Howard was shot-wood which was slightly in in particularly brilliant form front of the jack, he sprung the both with his drawing and his wood and the jack about two yards back to two opposing back-woods to give away three. A. M. Omar's win on Saturday earned for him and his rink, the distinction of being the only division so far. Out of matches, they have won

and drawn one. In the other first favourites day. Recreio "Blues" with a line-up scored an Green Club were just that weeluck not to have wins to their credit, just failed to make their fourth by losing narrowly to S. M. Rumhan's

rink by, 17-18. GIVEN A SCARE

points to one, -Craigengower Cricket Club were given quite a scare by Recreio "Whites" who still have to score a win yet. At the tea-interval, the Valley Club bowlers were down on all three rinks by a total of 15 shots. It was only after tea that they recovered sufficiently"

John Landy Is

Australia's John Landy, the surprised" to hear three men "had finished inside four minutes at the White City Stadium, London, yesterday.

Tabori of Hungary, Chris Chatway of England and Brian Hewson of England, finished under four minutes, no one came closer than one second to Landy's record of three minutes 58 seconds set up in June last

"It was only a matter of time," said Landy. "There are more talented runners about today and they are putting more work into their training." He added there were at least

half a dozen Milers who might break his world record, but, as he did not have time to train seriously, he did not expect to KCC 4 3 1 set up any new records at HKCC 4 2 2 10 CCC 3 2 1 91/2 Chinese.

Europeans Remain Aloof To Kramer's Experiment With New Tennis Scoring

UEBERSAX

European tennismen have turned the cold shoulder on an American experiment with new counting and serving rules and said grownups "should play tennis the way it has been played for the last 50 years."

"Well, it might be a good thing for some youngsters," smiled well-known British tennis pro Joe Pearce, commenting on a recent experiment by Jack Kramer's pro troupe. "But not for tournament players."

In an attempt to liven up inused the 21-point scoring system | Champion Pierre Gealhand, of table tennis and restricted themselves to one serve only.

"Tennis has made people happy all over the world for 50 years—

tennismen polled by United Press agreed. Their comments volleys elaborate lobs on the form of long-winded mathematical explanations aimed at showing that the new scoring system the present dis-

tribution of tennis strength. "Neither players nor spectators would get value for their money with the new system,'

Pearce summarily said. Exemptions were only made for part two of the tantative new rule—the single serve. Europe's post-war players have never been able to match the cannonball serves of Americans. Some of those polled seemed to figure that Europe. might gain on advantage if the one-serve rules obliged overseas serve-specialists to be more

AMERICAN HABIT

"I would support the idea of one serve instead of two because it would end the American habit serve," said Austria's onealso did so convincingly by 5-0 armed top player Hans Redi. "The one-serve system might be good us practice for youngsters, said Pearce. "It would tend to make them more careful and encourage accuracy."

"The good thing about this new system is that it reduces the advantage of the server," added former Norwegian Champion Johan Haanes.

But in the opinion of the Europeans, " seemed to be overshadowed by Some thought disadvantages, the disadvantages were so great that they even refused to take

PARTICIPATION IN SPORT FOR ROCKY MARCIANO IS LIKE GOING TO WAR

Says ALAN HOBY

I have returned from San Francisco to plunge right into the middle of a controversy which is splitting Britain:-ARE WE BECOMING A NATION OF

SQUEALERS? With all the force I can muster I say we are. Since the slaughter of valiant Don Cockell by Rocky Marciano, a new word has gate-crashed the English language-"Marcianoed".....

groans.

Because the Americans, the Spaniards, and the French don't play the game according to OUR conception of sport, the whine can be heard from Land's End to John o' Great's. At this rate we'll soon have to build our own Wailing Wall! the Marciano-Cockell

'Frisco's Kezar Stadium last Certainly Rocky broke some of the rules. Certainly he fouled

slug feast which I saw in

Certainly he was grossly guilty of using his elbows, hitting below the belt and punching after the bell-not to mention socking his opponent , when he was squatting helplessly on the deck. I'm not excusing such wickedness but, frankly, we had been

So did Cockell the boxer who because he lacked Marciano's hitting power never had a chance from the start.

The explanation is simple really. For Marciano, as with the rest of the world, participation sport is like going to war. RULES AND REGULATIONS Not for him the futile written nonsense of rules and regulations.

Not for him those "cissy" standards set by the Marquis of Queensperry. Myself, I think rules should be obeyed. I think that trained

professional athletes, no matter what nationality they are, should exercise self-control. But tell that to the Rocky Marcianos of the world. They'll & LMG). RV Blake Pier 10.15 a.m.). Parade Ground at 5.45 p.m. Satur-

laugh in your face. With the Rock, once that bell psi of your intentions of attending leaves Salisbury Road at 1.45 p.m.

It is a totally different concept-and no amount of selfrighteous screaming about our wrongs is going to change it. We'll gain no admirers that way. What we must do is button our lips and GET TOUGH. You bellows loud and long enough about his

wonder. or wrong, that's what the rest of the world is beginning to do about US. My own reaction, when I see our footballers and

DWARF THE EIFFEL

Brussels, May 29. "Belgium is planning to build the nighest tower in the world as the main attraction for the Brussels World Fair to be held here in 1958,

This proposed "vertical city" would be more than 150 metres (391 feet) higher than New York's Empire State Building and more than twice the height of its famous predecessor, the Eiffel Tower in Paris.

a 500-metre (1,539 feet) conical and atelevision, an observatory, skyscraper, carrying a 135- a meteorological metre (442 feet) television other scientific total height to 633 metres (2,081

reminiscent of that which raged round the Eiffel Tower plan nearly 70 years ago, has arisen television, programmes to reach over the project. The Brussels all parts of the country withskyscraper has been likened to out the use of relay stations. the Tower of Babel, criticised from the aesthetic angle described as a menace to aviation and called "the Government's folly."

The tower, which it is officially estimated will cost 500,000;francs . (£3,500,000)sterling), would be built prefabricated concrete on more than 2,000 piles sunk into the ground. US BRIDGES

Its architect is M. Gustave Magnel, a 'Belgian pioneer in Professor Bentley was Chair- prefabricated concrete has designed The present plans, which are being studied by a special Government committee being approved by the Cabinet, provide for 40 floors in

> with a diameter of 80. metres (262 feet) at the top. will contain 30 floors "housing radio and television studios. exhibition halls and a telecommunications school. A smaller 50-metre

feet) high section on top will

The plan, which has been contain another ten floors. Eight approved in principle by the of these will be used for the Belgian Cabinet provides for technical service of the radio bringing the towers stations, while the last two will be taken up by a restaurant, a bar and a terrace capable of But a storm of controversy, holding 1,500 people at a time. A television mast topping the giant tower will allow

HUGE BLOCKS

The last part of the mast will be given a powerful radar acrial which would make the building a watch tower for the country's military security.

Plans provide for two lifts in a shaft in the centre of the tower, which would also contain the staircases and all the necessary piping and electrical wiring.

Huge concrete blocks, six metres (19 feet) long, 50 centimetres (19 inches) high and 30 centimetres (11 inches) thick would be used to build the tower which will have to be constructed in three years if itis to be ready for the World Fair. The Elffel Tower took eleven years to build.

Indeed, Members of Parliament have expressed fears in the House that the skyscraper will be a modern Tower of Babel, remaining for ever haif infinished," and claim that the money would be better spent on improving the country's road network.

But the plan has come under the heaviest fire from aviation circles who say that the tower would be a direct threat to Brussels' international airport.

Under international rules all civil transport aircraft must keep more than five nautical miles (about five and a half land miles) away from any structure higher than the altitude at which it is flying.

Brussels airport is only ten kilometres (six miles) away from the proposed site for the tower and much of the present approach run to the sirport would thus come into the "forbidden zonc."

DETOURS

To avoid this zone, aircraft would have to make detours of up to 80 kilometres (50 miles), according to the Belgian aeronautical magazine "Air-Revue" and the extra cost involved might turn several international airlines away from the airport. Moreover, fog in the winter would make the tower a great danger since an aircraft which has missed its landing approach

has to continue flying, straigh even if in the danger zone to gain height before it can turn, the magazine said. But M. Edouard Anseele, the Belgian Communications Minister, who is the main sponsor of the plan, denies that" the tower would be a danger to aviation. He quoted the example of

500-metre (1,639-feet) tower in the United States, which equipped with electronic warning devices and lights making it visible for more than 80 kilometres (50 miles): There are also, he said, international airports surrounded by mountains. M. Ernest Dehutter, a Liberal Member of Parliament, and former holder of the Gordon Bennet flying cup, has also said that the tower might become a beacon for aircraft rather than a hazard."

The Government says that the cost of building the tower will be easily met by the entrance fee paid by the 30,000 000 visitors. expected to come here for the World Fair.

Critics reply that if the tower can be made a paying proposition, private capital would be willing to finance its building and the Government should spend the money allotted on other, and more vital projects. They add, moreover, that the tower will probably cost much more than the estimated 500 000,000 francs.

The question of centralising television programmes in the tower has also brought protests from both Flemish and Walloom cultural organisations.

Neither the Flemish in the north nor the Wallocus or

north nor the Walloons or French-speaking population in the south, approve of any centralisation, for they are each jealous of their own cultural rights. Before the tower plan was announced, television studios were to be equally divided between the two halves of the country. China Mail

West Indies Federation Possible .

Port of Spain, May 29. Federation of the British West Indies, first suggested about a century ago, should now become a reality within a measurable future.

With success attending the recent conference on the question of migratory problems between the Islands interested in federation, the green light has been given for carrying out the final stere to forge ten scattered colonies, some large, some small, into a West Indian of about 3,000,000

Mr Albert Gomes; Trinidad's portly Minister of Labour said recently: "The main battles of federation are already won, and only a few minor skirmishes remain."

It had been anticipated that the conference on migration, or freedom of movement, between the various islands, might run into difficulties. But such was the spirit of compromise shown that agreement was reached in eight or nine hours of discussion over three days-that, and a good deal of activity behind the scenes.

RESPONSIBILITY

Briefly It has been decided that the various islands will deal with their own immigration problems for a period of "five years after federation. Responsibility will then pass to the Federal Government for the control of inter-island migration.

Fears that freedom of movement might produce a rush of job-seekers from the smaller, poorer islands to the larger. more prosperous ones have been mainly expressed by Trinidad's East Indians, who number about one-third of the Colony's population of 660,000.

The East Indians have intheir belief that stream of immigrants in search of work might unsettle the economy of the island.

They have been told more than once that such fears are groundless, and they were advised Trinidad. of Hubert Rance, in his speech at the opening of the conference on migration to regard themrelves as "West Indians Trinidadians second, and Indians last of all."

SPOTLIGHT

evolving the federal plan have spotlighted the fact that the large industrious Indian community in Trinidad maintains itself in a somewhat tight racial cell. This is something of a hush-hush subject, but men such as Mr Albert Gomes have openly referred to the problem raised by the lack of desire shown by the East Indians to become assimilated in their surroundings in the West Indies.

It is not too much to say that the attitude of the East Indians, and their influence, present and potential, is accelerating the whole process of federation.

Trinidad in September and the of favourable earnings reports East Indians are making plans to put up the biggest effort they have made so far. They are possibly the best organised section of the population and success in the elections would place them in a position where they might jeopardise the federal plan. ..

A GESTURE

Now that a solution has been found for the problem of migrathere is discussion of where the federal capital should be situated. It has been subgested that the bigger units coming within the ambit of the plan might make gesture to the smaller units by having the capital in one the lesser islands. Grenada has been mentioned.

The new tendency, as part of the process of accelerating federation is to advocate the establishment of the capital in one of other of the three big islands—Jamaica, Trinidad or Barbados, known here as "little England."

Those who advocate this stress establishment of the capital on one of the large islands, with their better communications and accommodation and other advantages, would save both time and trouble.

No decision has yet reached on this question.

But that is merely one of the "The US purchase last year "Dealers will probably want abroad so long as foreigners are uninor skirmishes" to which totalled 40,000 tens but out of a them at a lower price than willing to pay her prices. And Mr Albert Gomes has referred. total export of 70,000 tens worth British or other foreign menu-What is more important as 415,000,000 Malayan dollars. factures."

Tory Victory

From Our Own Correspondent

London, May 29.

The election result confirmed the City's highest expectations. And the London Stock Exchange celebrated the Conservatives' victory by putting share prices up to their highest ever level.

During the week growing confidence in a Conservative win led to a minor boom in industrial ordinary shares and the Financial Times index rose from 192.2 on Monday to 195.9 on polling day when it stood less than one per cent below the all-time peak reached last February 3.

As signs of a Conservative from the Socialist renationalisa- reaction was in the offing. tion threat led the way with Stewarts and Lloyds out in

From Our 100 Years Ago

We have been favoured with the following exposition of the Tariff of Sir John Bowring's Treaty with Siam, in order to clear away the difficulties which, it seemed to us, were involved in the apparently authorised statements that had already appeared on the subject:-

"Under the present system, tributable rather to congestion there are a variety of duties, produced by the great quantity paid on the sundry, article of of alcoholic liquor, which, Exports from Siam, such as, besides what deceased had duties on planting the sugar already vomited, was still found cane_duties on manufacturing it—duties on consumption duties to the farmer of the revenue-duties" on exportation. These are all to be abolished, and only one duty is to be charged. If the article be taxed for consumption, the export

is free; if not taxed for consumption, it is to pay the tariff duty as paid by the Siamese or Chinese; except in a few cases where the tariff has been lowered. The tariff, which is all settled, is attached to the Treaty. The export tariff not to be a percentage one, but the duty on every article is fixed in the coinage of Siam. The Import duty is to be a

percentage, to be paid, as may be arranged, in money at an ad valorem calculation, settled by the Consul and Siamsse authorities, in case of dispute, or in three parts in a hundred of the commodity itself.

It thus appears that a tariff of duties on the different articles of export is attached to the Treaty; and we submit that in was only necessary to say so, without the preliminary explanation about one duty being substituted for the present complicated system. Such surplusage seems less likely to enlighten than to confound the reader; who may still be at a loss to understand what is meand by "articles taxed for consumption," which, it seems, are to be free of export duty. As to import, the duty on hem is to be three per cent ac valorem, according to a plan which looks very simple and fair on paper. How it will work, experience will shewperhaps neither simply dor

ROSS & WOODBERRY The Boletim do Governo of the 12th instant contains some particulars about Ross and Kadio Hongkong Woodberry. After a narrative of what happened from Sydney September 1853, on board the more than a month ago he arrived at Macao, whither he had proceeded thinking he might meet his wife there." It appears that he had applied to the authorities to prevent her leaving the place, but unfortunately cot until she had already left it; end, according
